NDV Extension Program and Junior High After School

NDVEP is an extension of the regular school day. The Extension Program is open to NDV students in grades Kindergarten through Fifth grades. The JHAS program is open to all NDV students in sixth through eighth grades. Care is provided from the time of dismissal on each day school is in session until 6:00 p.m., which includes early dismissal and minimum days. A snack is provided for the children daily.

NDVEP/JHAS incorporates the school philosophy of fostering respect towards self and others. Because NDVEP/JHAS is an extension of the NDV academic day, time and staff resources are made available for the children to aid in the proper completion of all classroom assigned work.

The growth of individual creativity and group interaction is fostered through arts and crafts, cooking projects, dramatic play and indoor and outdoor play. Children may choose to work on individual art projects or combine in group projects during the year. The NDVEP room has a bounty of supplies to help trigger the imagination during dramatic play. Indoor toys and games encourage social interaction and extend concepts in language arts in an open-ended atmosphere. Outdoor play is also a daily part of the NDVEP program.

In the NDVEP/JHAS program, the teacher student ratio is 14 to 1. Children are accepted on a first come first serve basis. Tuition for the 2008/2009 school year is \$1900.00. There are no part time or drop in arrangements.
